## Filter Plate Manual Technical Information

### Side Bar Details

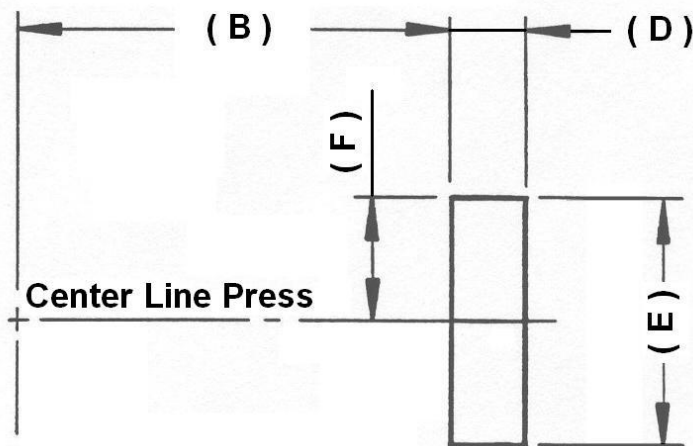

Round Side Bar Detail

A) Round Side Bar Center Distance.

B) Side Bar Inside Distance.

C) Round Side Bar Diameter.

Rectangular Side Bar Detail

D) Rectangular Side Bar Thickness.

E) Rectangular Side Bar Height

F) Rectangular Half Side Bar.

#### Note:

- 1) Fill in the appropriate dimensions for your side bar details. Cross out any details or views which do not apply.
- 2) Use the blank space above to sketch your side bar if it does not match either detail shown.
- 3) Add any other details to the above sketches if necessary (i.e., see guides, shifting mechanism profile, etc.).
- 4) If your side bars on your press are not the same on both sides of the press, please note which detail is on which side of the press as you are looking at the Head End of your press (i.e., "Round" on Right and "Rectangular" on Left).
